Evolving the Hunt

With a powerful suite of fully managed protection, detection, and response capabilities—backed by a 24/7 SOC—Huntress helps you fight back against today’s determined cybercriminals.

Bring Human Experts to Your Security Team

The Huntress Security Operations Center (SOC) enables you to streamline your defenses and add the power of real, around-the-clock threat analysts to your team. Using technology to scale their expertise, our analysts can help identify, investigate and isolate hidden threats that would otherwise remain undetected.

Security Made Simple

No appliances. No complicated configuration. No constant fine-tuning. The Huntress Managed Security Platform is a simple and affordable cloud-delivered solution that makes it easy for you to defend against hidden threats and advanced attacks. Simply let our technology and the Huntress SOC analysts deliver advanced security for your endpoints, email, and employees without all the guesswork.

Accelerate Your Evolution

Attackers are finding new ways to get past traditional defenses, and they show no signs of stopping. The Huntress Managed Security Platform is built by offensive security experts who continuously add services to extend the depth and breadth of your security posture and keep you one step ahead of today’s advanced threats.

“
We partnered with Huntress more than two years ago and haven’t had a single regret. Huntress’ capabilities to seek out threats on the endpoint, investigate them quickly and provide remediation recommendations provides my team with an incredible weapon to deal with live incidents.

Chris Loehr | Solis Security
The Huntress Managed Security Platform

Through our unique combination of software and 24/7 SOC coverage, Huntress empowers you to level up your game and face today’s cyber threats head-on—all with minimal cybersecurity experience required.

Managed EDR
With near real-time endpoint detection and response—backed by our 24/7 SOC—Huntress Managed EDR provides unparalleled endpoint visibility to weed out and stop cyberattacks as they happen. Detect, isolate, and remediate malicious threats across your endpoints, including persistent threats, antivirus evasion, ransomware, and more.

MDR for Microsoft 365
Managed detection and response (MDR) for threats against your Microsoft 365 environment, backed by Huntress' 24/7 SOC. Huntress MDR for Microsoft 365 enables you to protect employee identities and inboxes from stealthy threat actors, suspicious logins, and the rising threat of business email compromise (BEC) attacks.

Security Awareness Training
Empower employees to become their own line of defense. Huntress Security Awareness Training delivers a powerful—and fun—combination of training episodes, assessments, phishing simulations, and reports to help employees become more cybersavvy in the fight against threat actors.

Huntress SOC
Our 24/7 SOC team is the backbone of the Huntress platform and can be your secret weapon in the fight against hackers. This team of experts looks into potential threats, analyzes hacker tradecraft, creates incident reports, helps remediate cyber threats, and provides a degree of expertise and support that software-only solutions simply can’t match.

Key Features

- Protection from advanced threats and coverage across the entire lifecycle of an attack
- Gain security expertise by adding Huntress’ SOC analysts to your arsenal
- Complement your existing stack without complicated prerequisites or fine-tuning
- Clear, actionable incident reports that remove the guesswork behind overwhelming alerts
- Resolve incidents at the click of a button with Assisted Remediation, maximizing uptime and reducing the steps needed to respond
- Small, lightweight agent that’s designed to slow down hackers, not your devices
